By Milana

HI

I'am Milana

I create Digital Designs

as a Freelancer. I started MilaRock Creations so that I can offer integral solutions. My wide network of other creative freelancer makes it almost impossible not to achieve everything a client wants.

[More About Me](#)

The logo for MilaRock Creations is rendered in a light teal color. It features the name 'MilaRock' in a fluid, cursive script. The word 'Mila' is on the left, and 'Rock' is on the right. Below 'Mila' is the word 'Creations' in a smaller, clean sans-serif font. The 'Rock' is partially enclosed by a large, thin circular line that starts above the 'o' and ends below the 'k'. A small circle is positioned at the top right of this line, near the 'o'.

Expert On Making The Digital World Look Greater

Digital Designs

I have the gift to see what can be improved, it naturally happens. I have the desire of constant growth, therefore I read a lot and do quite some researches.

The need inside of me is to have the digital world filled up with beautiful designs, matching energies, successful business who are striving on what they are doing.

Sometimes it needs some deep questions, so that clients will know what they actually want. Or even allow to think big.

i Love when things come together and fall into place.

- **BRANDING, CONSULTING, WEB SITE DEVELOPMENT & DESIGNS**

Nigerian based Socio political Organization

Branding, Blue Print Pdf, Business Card, ID Cards Membership Form, Social Media Handle Set-Ups, Website Development (ongoing)
